

СОДЕРЖАНИЕ

Foreword	7
-----------------------	---

Физика элементарных частиц

Dorokhov A.E., Maximov A.E., Mikhailov S.V., Esaibegyan S.V.

Nonlocal Quark and Gluon Condensates within a Constrained Instanton Model	13
--	----

Efimov G.V.

Bound States in Quantum Field Theory	19
---	----

Kataev A.L., Parente G., Sidorov A.V.

The Interplay Between Perturbative QCD and Power Corrections: the Description of Scaling or Automodelling Limit Violation in Deep-Inelastic Scattering	29
---	----

Gupta V.

RESIPE — Renormalization Scheme Independent Perturbation Theory	38
--	----

Fiore R., Papa A., Jenkovszky L.L., Magas V., Paccanoni F.

Analytic Model of a Regge Trajectory in the Space-Like and Time-Like Regions	46
---	----

Goloskokov S.V.

Diffraction Hadron Production and Pomeron Coupling Structure	51
---	----

Sitenko Yu.A.

Absence of Axial Anomaly in the Background of the Bohm–Aharonov Vector Potential	58
---	----

Chernikov N.A.

The Gravity Theory on a Background of the Lobachevsky Geometry	65
---	----

Dubrovskiy V.A.

Vortex Instability of the Continuous Medium Movements	72
--	----

Chavleishvili M.P.

Symmetry and Analyticity	79
---------------------------------------	----

Статистическая физика*Peletminskii S.V., Slyusarenko Yu.V., Peletminskii A.S.***Phase Transition Associated with Formation
of Spatially Periodic Structures in a Fermi Liquid 89***Sugahara M., Ogi S., Araki K.***Boson FQHE State in Cuprate Oxide Induced
by Zero-Point Oscillation and Macroscopic Interference
Phenomena Demonstrating Fractional Charge 96***Harding F.A., Ilchev A.S., de Lange O.L.***Order-Disorder Transitions in an Asymmetric
Next-to-Nearest Neighbours Ising-Type Model 103***Plakida N.M.***Unconventional Superconductors..... 107***Bogoliubov N.M., Malyshev C., Bullough R.K., Kapitonov V.S., Timonen J.***Asymptotic Behaviour of Correlation Functions
in the Trapped Bose Gas 115***Sankovich D.P.***Rigorous Results in a Nonideal Bose Gas Theory 122***Gerlach B., Smondyrev M.A.***Excitons and Polarons in Quantum Wells..... 129***Soldatov A.V.***Generalization of the Peierls–Bogoliubov Inequality
by Means of a Quantum-Mechanical Variational Principle 138***Czerwonko J.***Combined BCS and Van Hove Scenarios:
a Solvable Thermodynamics in Half-Filled Symmetric Bands..... 145***Lippert K., Müller R., Birner T., Kühnel A., Behn U.***Noise Induced Phase Transitions in Spatially Extended Systems..... 150***Larsen S.***Hyperspherical Adiabatic Formalism of the Boltzmann Third Virial 156***Brankov J.G.***Exact Results for 1D Simple-Exclusion Process
with Ordered-Sequential Dynamics and Open Boundaries 164**

<i>Chamati H., Tonchev N.S., Danchev D.M.</i> Some New Exact Critical-Point Amplitudes	171
<i>Exner P., Joye A., Kovařík H.</i> Magnetic Transport Along One-Dimensional Perturbations in the Plane	177
<i>Tareyeva E.E., Ryzhov V.N.</i> Classical Many-Particle Distribution Functions: Some New Applications	184
<i>Sokolov A.I., Orlov E.V., Ul'kov V.A., Kashtanov S.S.</i> Free Energy and Non-Linear Susceptibilities of $O(n)$-Symmetric Systems at Criticality	190
<i>Inozemtsev V.I.</i> Bethe-Ansatz Equations for Quantum Heisenberg Chains with Elliptic Exchange	196
<i>Ivanov V.A., Popovic Z.V., Moshchalkov V.V., Bruynseraede Y.</i> Heitler–London Insulators in New Oxide Systems	202
<i>Ilieva N., Thirring W.</i> A Mixed Mean-Field/BCS-Phase with an Energy Gap at High T_c	208
<i>Shalaev B.N., Jug G.</i> Duality Summetry of the 2D Φ^4 Field Model	215
<i>Kovalevsky M.Y., Kuznetsov V.V.</i> Quasiaverages in Microscopic Theory of Liquid Crystals	221
 Ядерная физика	
<i>Malakhov A.I.</i> Asymptotic Laws in Relativistic Nuclear Physics and Their Experimental Verification	229
<i>Rohoziński S.G., Srebrny J., Zajac K., Próchniak L., Pomorski K.</i> Description of Transitional Nuclei in the Framework of «Quadrupole Plus Pairing» Collective Model	237
List of participants	244
