

Laureates of the JINR N. N. Bogoliubov Prize (2006–2008) Academicians D. Shirkov (left) and B. Paton

Laureate of the International N. N. Bogoliubov Prize for young scientists I. Ivanov (Liège University, Belgium)

Dubna, 27 January – 6 February. Participants of the 7th Winter School on Theoretical Physics

Bogoliubov Laboratory of Theoretical Physics, 20 July.  
Opening of the 7th International Summer School on Modern Mathematical Physics

Bogoliubov Laboratory of Theoretical Physics, 28–29 May. Workshops on hadron and nuclear physics in the framework of the agreement on cooperation between JINR BLTP and the Asia-Pacific Centre for Theoretical Physics (Pohang, Republic of Korea)

Bogoliubov Laboratory of Theoretical Physics, 3 August.  
The 8th International Workshop «Supersymmetries and Quantum Symmetries»

Bogoliubov Laboratory of Theoretical Physics, 1–5 September.  
The 13th International Workshop on Spin Physics at High Energies (DSPIN-2009)

Veksler and Baldin Laboratory of High Energy Physics.  
Specialists G. Khodzhbagiyev and A. Butenko made a decisive contribution  
to the preparation of the Nuclotron to the operation mode

Veksler and Baldin Laboratory of High Energy Physics.  
Members of the collaboration «Energy plus Transmutation» discuss the results  
of the experiments conducted in the November run at the Nuclotron

Veksler and Baldin Laboratory of High Energy Physics, 16 July.  
A delegation from the Institute of Modern Physics (IMP, Lanzhou, China) visits the laboratory accelerator complex

The CMS centre of remote monitoring and data analysis at JINR (Bldg. 215, VBLHEP)

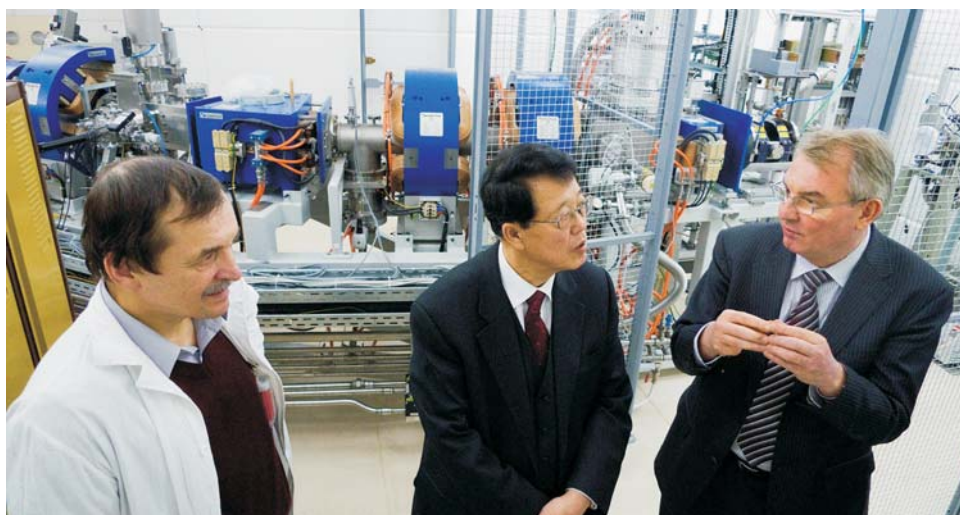

Veksler and Baldin Laboratory of High Energy Physics.  
Video conference on the Nuclotron-M and NICA projects

Dubna, 18 December. A ceremonial meeting dedicated to the 60th anniversary of the synchrotron start-up at the Dzhelepov Laboratory of Nuclear Problems

Flerov Laboratory of Nuclear Reactions. Discussion of the new experimental building plan of the laboratory

Flerov Laboratory of Nuclear Reactions, 12 February. IUPAC President Professor Jung-II Jin (centre) views the Laboratory's experimental base

Flerov Laboratory of Nuclear Reactions, 3 July. Head of the Moscow Office of the Helmholtz Association Martin Sandhop (second from right) visits the laboratory

Flerov Laboratory of Nuclear Reactions.  
Members of the Programme Advisory Committee  
for Nuclear Physics at experimental facilities of the laboratory

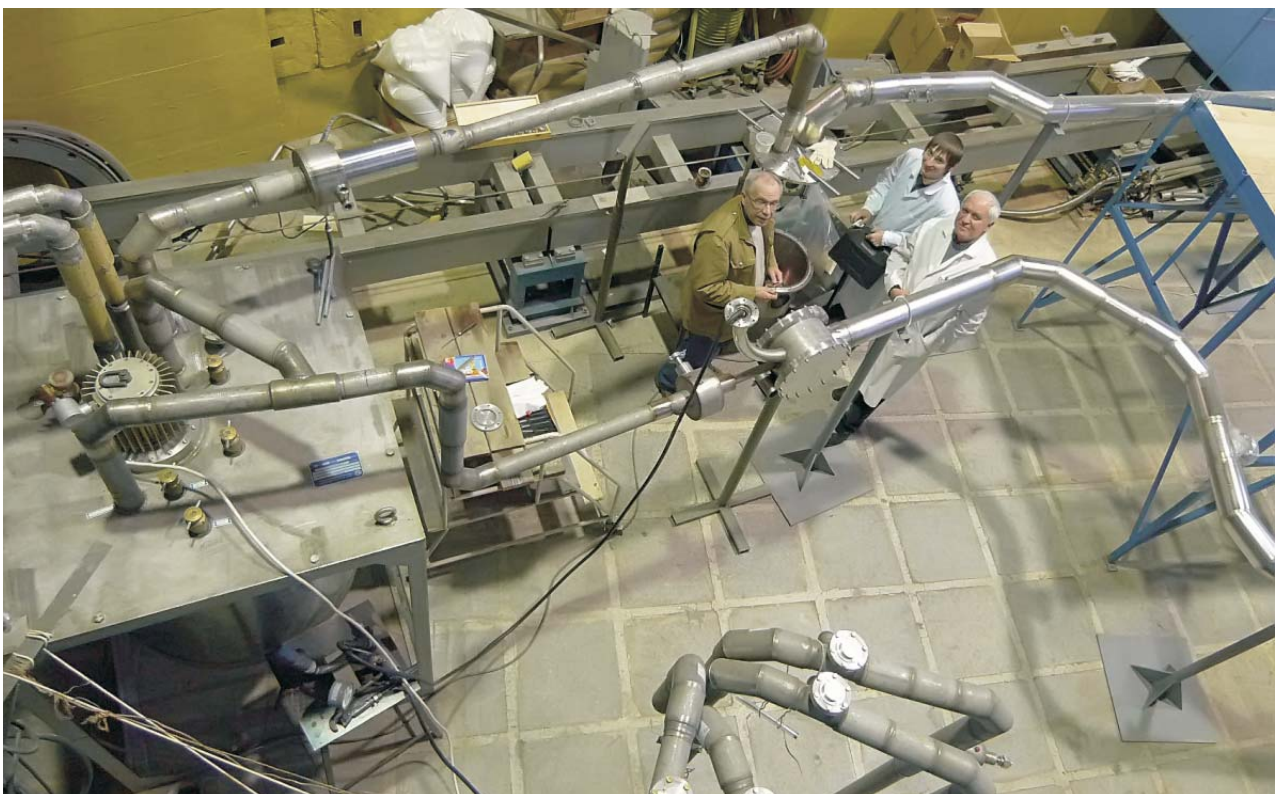

Dubna, 30 May. The 17th International Seminar on Interaction of Neutrons with Nuclei (ISINN-17)

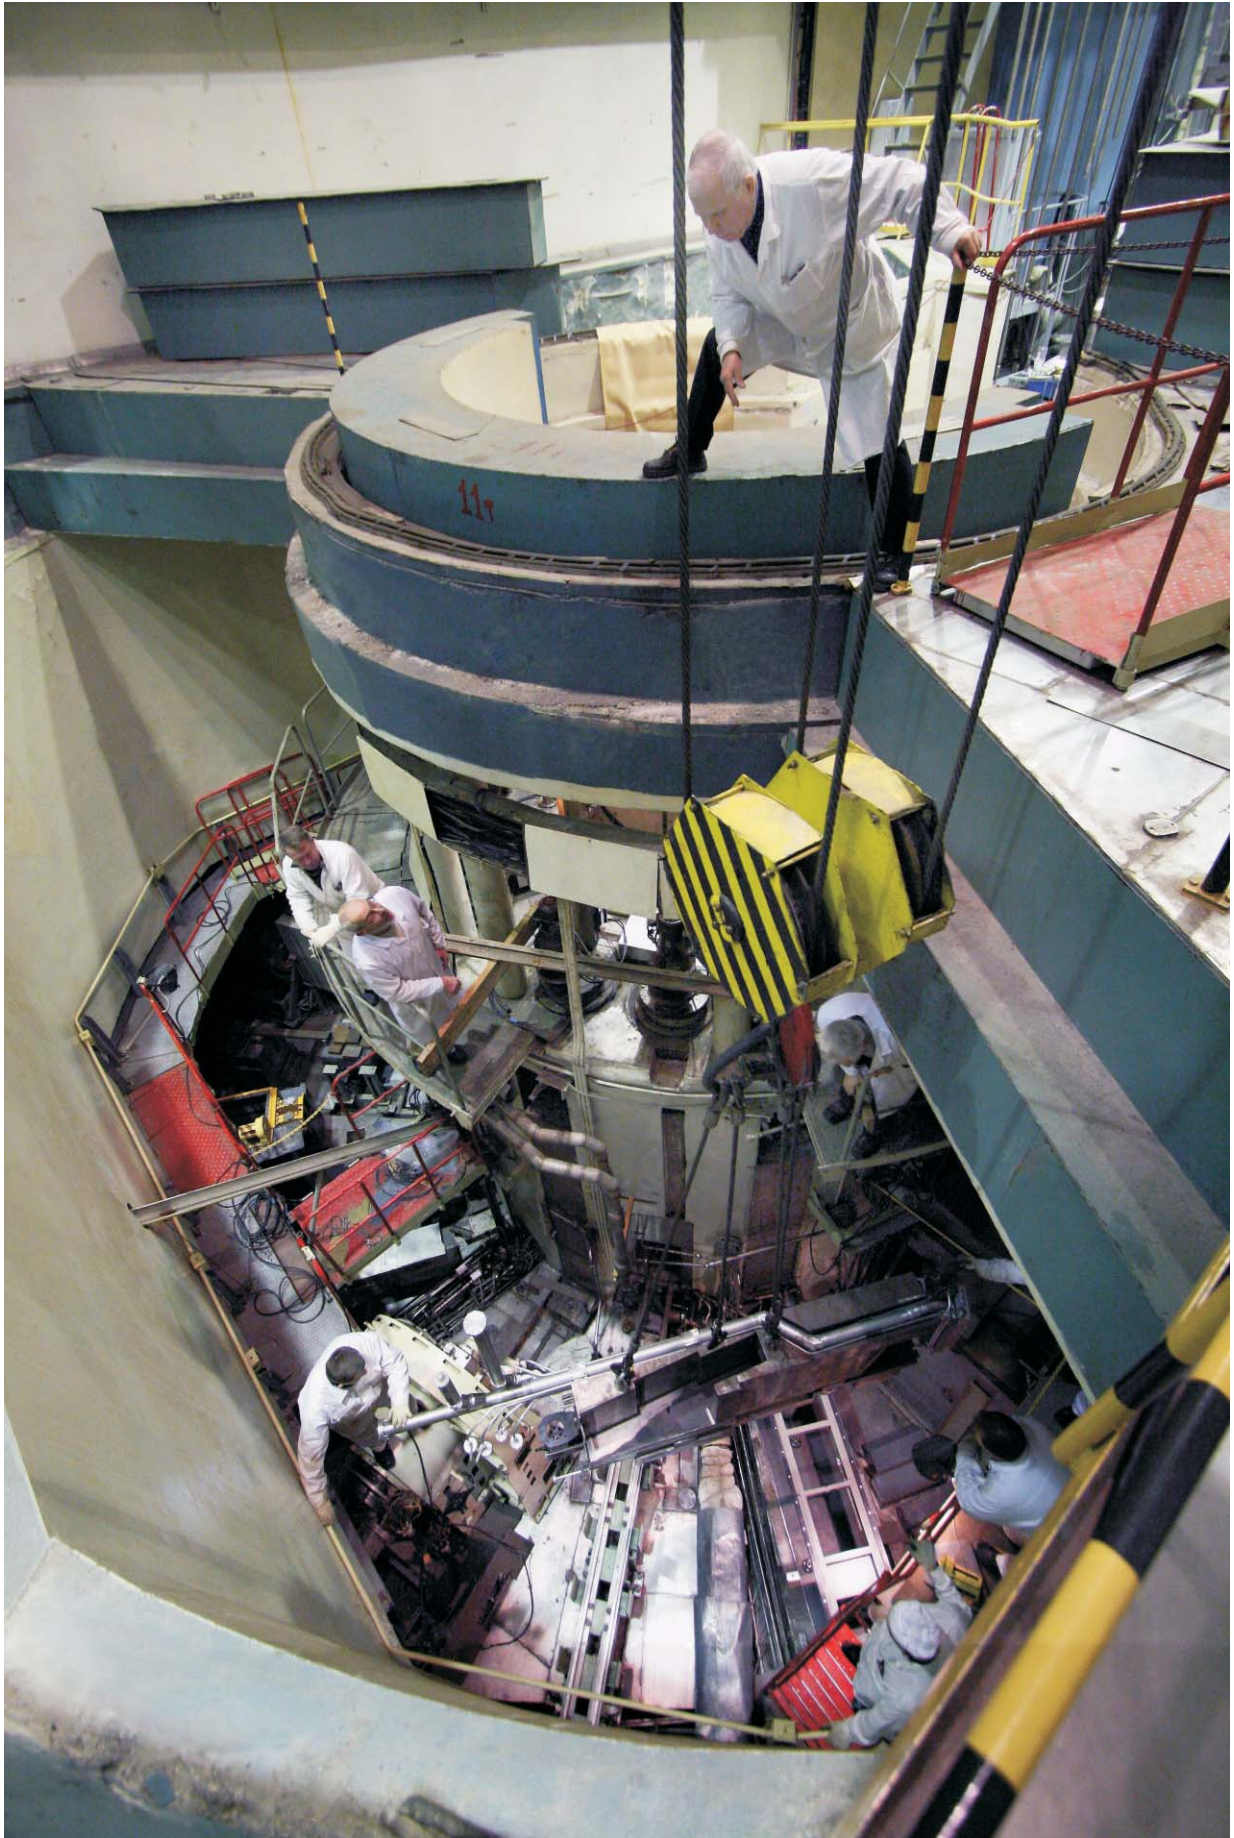

Frank Laboratory of Neutron Physics, 15 October. Participants of the All-Russian scientific school for youth «Modern Neutron Diffraction Technique: Interdisciplinary Research of Nanosystems and Materials»

Frank Laboratory of Neutron Physics. Full-scale test bench for testing of the new cryogenic moderator of the IBR-2M reactor

Frank Laboratory of Neutron Physics. Upgrading the neutron pulsed reactor IBR-2M

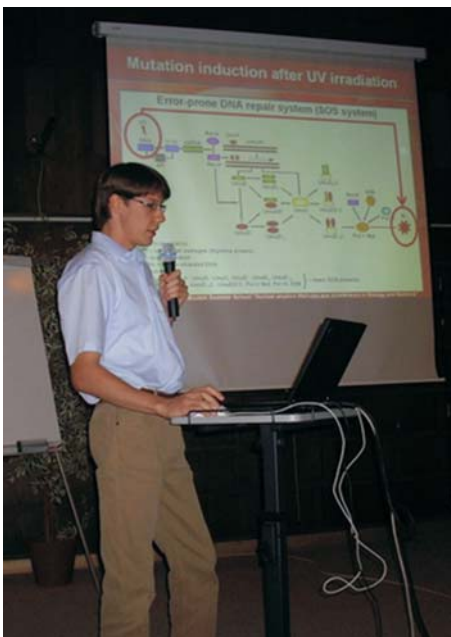

Staff members of the Laboratory of Radiation Biology — the laureates of the JINR Prize'2009

Laboratory of Radiation Biology, 16 October. A delegation from Mongolia at a meeting in the laboratory Directorate

Bratislava (Slovakia). Young JINR LRB staff members — participants of the 5th International Summer School on Nuclear Physics Methods and Accelerators in Biology and Medicine. Left is O. Belov.

Laboratory of Information  
Technologies, 10 June.  
Presentation of a new  
trunk channel  
«JINR Dubna – Moscow»

Dubna, 7 September. Presentation of Master Diplomas at the JINR Directorate to the graduates of the basic chairs of Dubna University

JINR University Centre, February. Students of the Marie Curie-Skłodowska University (Lublin, Poland) at a practice class

JINR University Centre, October. International practice in JINR research trends for Egyptian students

JINR University Centre, September. Students from the Republic of South Africa — the participants of the International Summer Student Practice

JINR University Centre, 19 February. A group of postgraduates and teachers of the JINR basic chair «Electronics of Physics Facilities» in MIREA

JINR University Centre, November. Young scientists from CIS countries attending probation courses at JINR

Dubna, 23–24 November. Meeting «Ten Years of the MIREA EPF Chair in Dubna»
